- Excellent written and verbal communication skills

LANGUAGES

- HTML, CSS and Javascript
- React/Redux
- Node/Express
- RESTful APIs
- GraphQL and Apollo Servers
- Mongo, MySQL and Postgres Databases

GITHUB

PROFESSIONAL EXPERIENCE

Partner

Vintage4me2.com | 1997 - Present

- Responsible for all web development, design and maintenance on our Shopify powered web store.
- Coordinate sales strategies and marketing campaigns across four platforms that made us an industry leader in the vintage sewing space and led to 27 years of sustained growth.
- Create relevant and effective ads and titles with SEO features for organic reach on Google, Pinterest and Facebook.
- Maintain business sales records and mailing lists, using advanced segmenting and targeting to identify potential opportunities on both the inventory and customer side.

Senior Javascript Coding Teacher

2u.com | 2020 - 2024

- Worked one on one with students in three and six month coding bootcamps teaching Javascript and the MERN.
- Conducted thousands of 50 minute sessions that involved running and debugging code while explaining the reason behind the error and leaving students with more stable code and a better understanding of coding principles.
- Broke down complicated Javascript concepts into easy to understand bites that lead most students to be able to continue independent career development after graduation.
- Quickly promoted from Coding Tutor to Senior Coding Tutor within 3 months. Received 4.9/5 average star ratings from students and bi yearly performance based pay increases.
- Supported students emotionally as they put it all on the line to learn a new career while facing the daily challenges of life.
